Providing Increased Financial Security and Peace of Mind

According to data from the U.S. Census, Centers for Disease Control, the federal court system and the Commonwealth Fund, unpaid medical bills are the number one cause of bankruptcy filings in the United States. Most of these cases stem from critical illnesses such as heart attacks, strokes, certain types of cancer and conditions such as multiple sclerosis. Many of these bankruptcies could have been avoided with Critical Illness Insurance. Amalgamated Life's Critical Illness Insurance Policy is designed to alleviate financial hardships resulting from a critical illness.

The Importance of Critical Illness Insurance

Amalgamated Life's Critical Illness Insurance can be used to cover medical expenses that other policies may not cover. These include deductibles, co-pays, non-covered prescription drugs, alternative treatments, and non-medical expenses such as mortgage or rent payments, utility bills, car payments and insurance premiums. It is intended to help you and your family withstand the financial pressures introduced by a critical illness.
